

MMI PRODUCT CATALOGUE

Engineered for Professional Yacht Operations

ABOUT MMI

McIntyre Marine Inspections develops premium, purpose-built products and custom solutions designed to solve real onboard pain points across the superyacht industry.

Built from genuine first-hand experience, our approach is simple: identify the frustrations, inefficiencies and overlooked details crews deal with every day, then turn them into practical, well-executed solutions that improve organisation, safety, presentation and day-to-day operations onboard.

Designed by engineers from within the industry, every MMI product is rooted in real-world use and created with the same attention to detail, functionality and finish expected onboard the vessels we serve.

PRODUCT LIST

OPERATIONAL TOOLKITS

Department Colour-Coded Drop Cloth System	04
Heavy-Duty Vacuum Garbage Bags	05
Rapid Connect Portable Starlink.....	06

EMERGENCY SYSTEMS

Muster Mat	07
Damage Control Kit	08

Department Colour-Coded Drop Cloth System

Heavy-duty microfiber drop cloths designed for yacht maintenance and interior protection. Colour-coded by department to prevent cross-contamination and improve onboard organization.

- Colour-coded by department (Engineering / Deck / Interior)
- Embroidered identification for long-term durability
- Heavy-duty absorbent microfiber construction
- Machine washable and reusable
- Designed for professional yacht environments

Drop Cloth System

Department	Colour	Use
Engineering	Black	Engine room maintenance
Deck	Blue	Exterior work and washdowns
Interior	White	Interior cleaning and protection

Heavy-Duty Vacuum Garbage Bags

Industrial-strength vacuum seal bags designed for onboard waste management.

Built for high-volume yacht operations — reducing waste size, containing odor, and improving overall garbage handling efficiency.

Vacuum System Overview (How it works)

- Place waste into heavy-duty vacuum bag
- Seal using onboard vacuum machine
- Air removed → volume reduced
- Clean, stackable, odor-contained packs

Result: Cleaner storage, reduced odor, and more efficient disposal logistics onboard.

Bag Specification

Size: 620 x 1000mm

Important Notes

- Do not vacuum pack glass
- Do not vacuum pack aerosols
- Do not overfill bags

Waste Label System

Type	Colour	Use
Recycling	Green	Plastics, paper, recyclable materials.
Food Waste	Red	Organic waste and galley food scraps
Domestic	Blue	General onboard waste
Operational	Yellow	Maintenance-related / non-domestic waste

Rapid Connect Portable Starlink

Battery or mains operation | Marine-ready | Rapid deployment

Rapid Connect™ is designed as a flexible connectivity platform, rather than a single fixed product.

The system supports multiple enclosure sizes and configurations, allowing it to adapt to different deployment needs whether that's quick-response use, extended runtime, or increased equipment capacity.

Overview

- Starlink Mini protected in custom insert
- Portable battery-powered deployment
- Mains power compatible when available
- Rapid setup for temporary remote connectivity

Typical Use Cases

- Beach club / guest operations
- Tender and shoreside deployments
- Temporary remote comms back to vessel
- Backup connectivity where fixed systems are unavailable

Platform Variants

- RC-01 Part number: MMI-RC-01 – Peli Storm iM2300 case
- RC-02 Part number: MMI-RC-02 – Peli Storm iM2400 case
- RC-HFM Part number: MMI-RC-HFM – Peli 1560

Developed in partnership with Peli Products UK.

Model	SKU / Case	Internal Dimensions	Key Notes
RC-01	Peli Storm iM2300	432 x 297 x 157 mm Lid: 51 mm Base: 106 mm	External: 462 x 340 x 170 mm Lightweight HPX resin IP67 rated Press & pull latches
RC-02	Peli Storm iM2400 SKU: iM2400-02000	457 x 330 x 170 mm	External: 487 x 386 x 185 mm Mid-format Storm case option – allowing battery charger to be inside case
RC-HFM	Peli Protector 1560 SKU: 1560-001-110	516 x 390 x 228 mm	External: 560 x 455 x 265 mm Retractable handle + wheels Transportable

Muster Mat

A clearly designed mat that lays out key emergency, grab bag and survival equipment in a clean, instantly understandable format.

Overview

- Roll out mat for an abandon ship muster to lay out all of the equipment neatly for easy visual awareness of what is missing, also keep the space neat and organised.

Result: Efficient and organized onboard muster / emergency equipment layout and staging.

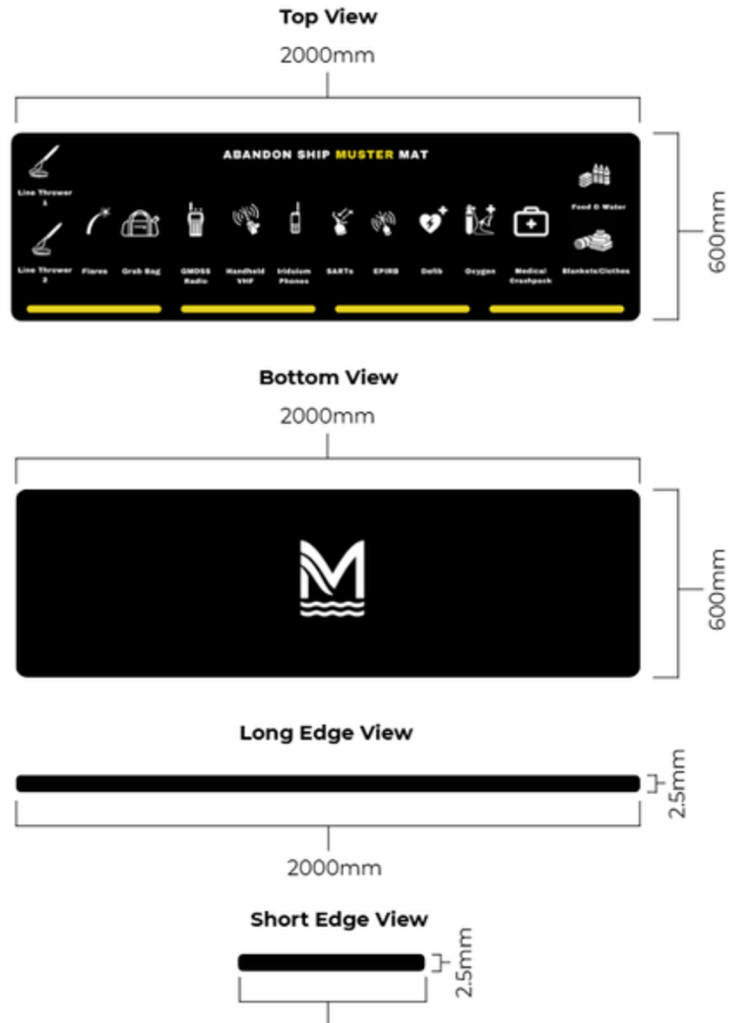

Mat Specification

Size: 600 x 2000mm

Thickness: 2.5 mm

Material

- Shark skin style neoprene
- 2.5 mm thick rubber mat

Damage Control Kit

A rapid-deploy emergency kit designed to help crews stabilise incidents, protect assets, and buy valuable time until safe harbour, assistance, or full repair is possible.

Developed in partnership
with Peli Products UK.

Overview

- Compact, durable protective case format
- Designed for rapid deployment in emergency situations
- Organised internal layout for fast access

Result: Efficient and controlled incident response, improved organisation, and reduced time to stabilise damage until safe harbour or assistance is reached.

Available Variant

The Damage Control Kit – Limo Edition: builds on the standard DCK platform with additional premium emergency response tools selected specifically for limousine tenders, guest operations, and high-visibility support craft where both rapid response and passenger reassurance are critical.

- MMI-branded Leatherman Raptor Rescue Shears
- Navisafe Navilight 360° Rescue Light (Magnetic Mount)
- Navisafe Navilight 360° Tricolor Navigation Light (Suction Mount)

Contents

Repair & Sealing

- Nylon repair patches and adhesive systems
- Marine-grade epoxy and underwater repair compound
- Waterproof sealing tape and pipe repair wraps

Damage Control Materials

- Rubber expansion plugs (assorted sizes)
- Wooden conical plugs for thru-hull emergencies
- Emergency containment and sealing components

Securing & Fastening

- Heavy-duty cable ties and fastening kits
- Jubilee clips and PTFE sealing tape
- High-visibility floating securing line

Tools & Equipment

- Flexible shaft screwdrivers (hose clamp access)
- Multi-tool and rescue cutting equipment
- Soft-face hammer and measuring tools

Safety & Handling

- Protective gloves and handling equipment
- Torch and retention lanyard

Housed in a genuine Peli™ 1500 Protector Case (Peli Products UK)
• High-visibility orange for rapid identification
