

TENDER TOOLKIT

Engineered Tool System for Tenders, Chase Boats & Support Craft

The MMI Tender Toolkit is a compact, professional-grade tool system designed for life onboard tenders, chase boats and support craft. Every tool has been selected for the jobs that actually come up afloat, and sits in its own custom foam cut-out for secure stowage, fast access and instant inventory checks.

Housed in a genuine Peli™ Storm iM2200 case, the kit combines premium tooling from Wera, Knipex, Facom and Bahco with a custom two-layer foam interior — a removable top tray for drive tools, and a dedicated base layer of 1000 V VDE insulated screwdrivers.

Product Features

- Watertight, crushproof Peli™ Storm iM2200 case
- Custom two-layer CNC-cut foam with removable top tray
- Every tool in its own cut-out for quick access and identification
- Premium tooling: Wera, Knipex, Facom, Bahco, Led Lenser
- Full 1000 V VDE insulated screwdriver layer
- Printed case cover and nameplate for clear onboard identification
- Suitable for stowage in tenders, garages, lazarettes and chase boats
